

Selected BTH Clerihews (1947)

Our Director, Mr L.J. Davies,
Quite remarkably suave he is;
But he can be provoked, by a fluke, as
Witness Mr G.S. Lucas.

Pamela Gwenllian Dunsmuir
How to do well was so unsure
That she polarized even light
Trying to get it all right. ** (1986) **

Dr Robert Dunsmuir
Took the BTH Advanced Course for a rest cure,
Being weary
Of magnetron theory.

Dr Dennis Gabor, (or Gabor, or Gabor)
Must now be only waiting to grab a
Chance to cross the wide Atlantic and labor
At the University of Michigan, Ann Arbor.

Photometry by H.R. Ruff
Achieves accuracy enough;
But he leaves his reputation in the lurch,
Answering the phone with "Hullo, Rough Research"!

To get the signature of E.A. Slater
You can sit in his office and wait or
Seek him elsewhere:
He won't be there.

The name of A.E. Smith
Is one to be conjured with;
He is the one
Who gets things done.
