

On automatic - vehicle technology (1980)

- it is said that what makes the automatic Car Go, acronymically,

Collision **A**voidance, **R**oute **G**uidance, **O** (nought) else - a **CARGO** - cult!

O my dear!	here am I	Keeping faith	high and dry:
I keep right,	I keep left	On the road,	though bereft
Of object-	-ive to gain -	You can say	that again!
Collision	I prevent;	On avoidance	I have spent
All such skill	as I knew;	Route; indeed,	but where to?
Guidance - need	it, I do!	O, alas!	there are few
Landmarks seen	here as day	Fades to night	round my way.
